PROJECTS

Portfollio website

Developed a responsive and dynamic personal portfolio website that showcases projects, skills, and achievements with a user-friendly interface.
Technologies: Angular 18 | HTML | CSS | TypeScript | Bootstrap

simple chat application

Developed a chat application focusing on backend functionality using socket programming concepts. The project includes both server and client components, enabling multiple clients to connect and communicate with each other.
Language: Java | spring-boot

simple-chess game

Developed a basic chess game as a learning exercise in object-oriented design and GUI development. The project features a graphical user interface (GUI) for user-friendly interaction, with standard chess rules and movement logic for all pieces, including the Queen, King, Rook, Bishop, Knight, and Pawn.
Language: Java

Blood-donor management system

Comprehensive web application for blood donors and campaign organizers to scheduling and viewing donation campaigns, appointment scheduling and view blood levels in blood banks.
Features: Donor registration, Unique QR codes for donors, Donor profiles, organizer profiles, Blood bank profiles, Appointment scheduling, appointments, Campaign organizing.
Technologies: Angular | Spring boot | MYSQL view

ACTIVITIES

Member of LEO club of university of kelaniya
Organizing committee - Project "DIYA DAHARA | project "SINAHAWA".

Member of IMSA of university of kelaniya

Music

- Violin - VISHARD I (2016 | Bhatkhande Sangit Vidyapith, Lucknow, India) - Pass
- Violin - MADHYAMA | Diploma (2013 | Bhatkhande Sangit Vidyapith, Lucknow, India) - I DIVI
